Statement II

Measures to improve the nutritional status including Anemia

Government has initiated various measures to improve the nutritional status including anemia in the population. The measures are:

1. The Government of India has launched the National Rurai Health Mission (NRHM) in order to improve the availability of and access to quality health care. Under this Mission, the Reproductive and Child Health Programme (RCH-II) for Anemia Control, provides iron and folic acid tablets to all pregnant and lactating women and preschool children.

   The other important interventions under NRHM include Janani Suraksha Yojana wherein cash incentives are provided for delivering a child at the health institution. A village link worker (ASHA) who will orient the community on the importance of Nutrition and shall be provider of IFA tablets besides orienting the community on other health related issues.

2. Supplementary feeding through programmes like Integrated Child Development services scheme. Children in the age group 0-6 yrs receive supplementary nutrition, immunization, preschool education etc. Supplementary food to pregnant women/nursing mothers to the extent of 500 Calories and 20-25 gm protein per day is also provided along with nutrition and health education. One of the recent steps to increase the effectiveness of services

under ICDS is the provision of 50% of Recommended Dietary allowances (RDA) of micronutrients through supplementary food.

Supplementary food is also provided through National Programme of Nutritional Support to Primary Education (Mid-day Meal programme) to school going children.

3. A National Nutrition Policy was adopted in 1993 and the National Plan Action on nutrition is being implemented through various departments of Government of India. Now a National Nutrition Mission has been set up to deal with all nutritional problems through a Mission mode approach.

4. Other measures initiated by the Government to improve the Nutritional Status of the people are:

- Improving agricultural and horticulture produce.
- Improving the purchasing power of the people through income generating schemes
- Availability of essential food items at subsidised cost through Targeted Public Distribution system and Public Distribution system
- Nutrition Education to increase the awareness and bring about desired changes in the dietary practices including the promotion of breast feeding and dietary diversification

5. Programmes for prevention of Specific Micronutrient Deficienty disorders other than iron deficiency

(i) Prophylaxis Programme to prevent Nutritional Blindness due to Vitamin A deficiency. This is also under the RCH programme (ii) National Iodine Deficiency disease Control Programme (NIDDCP) (iii) Pilot Programme for control of Micronutrient Deficiencies

AIIMS Like Institutions in Bhopal

†2041. MISS ANUSUIYA UIKEY: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) the names of the cities of the country where provision has been made to open the branches of AIIMS and whether Bhopal is also included into the same;

†Original notice of the question was received in Hindi.
